विद्या ददाति विनयं विनयाद्याति पात्रताम्।  
पात्रत्वाद्धनमाप्नोति धनाद्धर्मं ततः सुखम्॥

Knowledge makes you humble, humility gives you character,  
good character attracts wealth, wealth can be used for doing  
good deeds. This in turn leads to happiness in the world

...From The Desk of  
Chairman  
A "will" Finds A Way.

Dear Parents & Students,

It gives me an immense pleasure to express my view of the past session.

ROISSS was introduced with the object to uplift the standard of Education in Etawah & nearby areas. The response of parents & well wishers have really touched my heart which encouraged me to have a word with you to concentrate and meditate about will power which leads us to success and strength.

A student needs to study, knowing how good it is for his future; even than he prefers to involve in wasteful activities. The reason is that our mind does not like any discipline. It loves its freedom and whims more than any thing else.

"Human being does not lack strength; they lack will"

says **Victor Hugo.**

Will power is the inner power that grants the strengths: to make decision and take action against wanted and unwanted things, and also strengthens us to over come inner resistance.

So make an aim of your life and work on it with strong will power and you will observe that obstacles will move automatically and success will invite you at every step of life.

Wish you Good Luck

With Best Wishes.

Ranvir Singh Yadav

# CULTURAL ACTIVITY

## A Peep

The school was established on 10th April, 2011 under the aegis of Shri Vinay Kumar Shiksha Prasara Samiti, Nagla Harju Moonj, Etawah by the blessings of Almighty God with the vision to uplift the standard of Education not only in Etawah but all over the country. A standard of city is measured by the education of the citizens of a particular area. The school makes all efforts to provide the International level of education.

The father of our nation said, "Literary education is of no value if it is not able to build a sound character". By blending India's Culture and Heritage with Internationally accepted Educational system, Royal Oxford International Sr. Sec. School strives precisely for the overall character development of a child. The traditional 'Chalk & Talk' method of imparting Education is replaced by an effort to discover and nurture the special gifts of each student and inspiring one to attain peak potential through Academic and Co-curricular activities. A directional stress on enthusiastic participation, development of team spirit and sharpening of motor skills are some of the specific areas, that are emphasized upon by:

1. Providing quality Education and creating a zest for learning.
2. Broadening mental horizons and creating a deeper awareness.
3. Ensuring physical, mental and spiritual growth.
4. Channelising youthful energy towards the environment and society with a positive and friendly attitude.

5. Preparing the child to face the complexities of life with courage and live disciplined life.
6. Laying a strong emphasis on character building.
7. Including ethical and moral values in a child by providing an appropriate Moral and Cultural environment.

Our major concern is all round development of the child by maintaining quality Education. The deep rooted belief of the school is that every child is full of talents. We need to shape them by providing platform to prove them and proper guidance. Theme of the school "Let your light shine" itself reflects it. Due to ignorance, number of gems remains unpolished and we lose our precious gems which could shine and show the lights to others as well.

Object of the school is to make the students independent. So that they become the asset for their family & Society. The practice of knowledge with discipline leads to success and thus to a happier & Complete life, which in turn shall lead to a happier world.

Each one of us is capable of and has a responsibility towards our offspring to contribute our might in the making of better and happier world.

## THE ENTRANCE :

The school normally admits to Play group/Nursery/ Kindergarten/ Cl. I. However, the students may be considered for admission to other classes as well, subject to the availability of seats and as per the procedure laid down by the state government or C.B.S.E., which are as under :

## GENERAL CONDITIONS :

A student seeking admission to any class in the school will be eligible for admission to the class only if he/she:

- ✗ has been studying in a school affiliated to C.B.S.E. or any other recognized Board of Secondary Education in India.
- ✗ Has passed qualifying Examination, making him/her eligible for admission to that class;
- ✗ Satisfies the requirements of age limits (minimum and maximum) as determined by the state government.

## DOCUMENTS REQUIRED:

- (a) The school leaving certificate / Transfer Certificate duly signed by the head of the institution last attended and countersigned.
- (b) Document (s) in support of his/ her having passed the qualifying or equivalent qualifying examination: and
- (c) Date of Birth Certificate issued by the Registrar of Birth and death, wherever existing, as proof of date of birth in original.
- (d) Aadhar Card Copy.

No student migrating from a school in a foreign country other than the school affiliated to C.B.S.E. shall be eligible for admission unless an eligibility certificate in respect of such a student has been obtained from the Board.

No person, who is under the sentence of rustication or is expelled from any Board/University/School or is debarred from appearing in the Examination for whatever reason, by any Board/University will be admitted to any class.

No student will be admitted or promoted to any subsequent higher class unless he/she has completed the regular course of study of the class to which he/she was admitted at the beginning of the academic session, qualifying him/her for promotion to the next higher class. No student will be admitted to school after 31-day of July of the year.

## THE LEARNING

The school endeavours to provide broad & liberal Learning in the initial years. The activity-based learning is emphasized to develop communicative skills and to provide a strong base in main subjects i.e. English, Science & Mathematics.

## DIGITAL CLASS INITIATIVE FOR SCHOOLS THAT:

- Improves teachers' effectiveness and productivity.
- Brings abstract and difficult curriculum concepts to life.
- Makes learning an enjoyable experience for students.
- Enables multi-sensory learning in classrooms.
- Improves academic performance of students.
- Enables instant formative assessment of learning outcomes in class.

## WHAT IS DIGITAL CLASS :

The teachers' computers in all digital class rooms are connected to a dedicated server installed in the Knowledge Centre through a campus-wide network. A powerful digital class application engine allows teachers to view and map relevant digital content for their classroom sessions as per their time tables and syllabus.

Existing classrooms are converted into technology-enabled digital class rooms equipped with digital class Interactive Digiboard Systems or digital class with a PC connected to a dedicated digital class Knowledge Centre inside the school campus.

The vast repository of curriculum-based digital content developed and aggregated by Teach next is made available to teachers for use in the digital class rooms. The digital content is present in a Teacher-led format and is mapped to the curriculum.

A trained Program administrator is deployed by Teach next in every school to ensure real time technical and training support for teachers.

Teachers use the digital resources such as animations, video clips and stimulated models as a part of their 35-40 minute classroom period to teach the specific topics in digital class rooms, enabling a multi-sensory learning experience for the students.

A unique assessment tool is provided in the class room for teachers to make instant formative assessment in every session. Students answer the test with a powerful hand-held remote device.

## LIBRARY :

To maximize the reading skills of students, school has developed a rich library with approximately 10,000 books. Hindustan times, Times of India, Amar Ujala & Dainik Jagran are regular news papers. Besides this, school provides periodics like: Pratiyogita Darpan, Competition success, India today, Panorma, Children's digest, Encyclopedia and much more!

## MUSIC ROOM :

To maximise the co-curricular out put & provide platform to develop the hidden talent, music room is another part of learning fully equipped with different music instruments including CASIO.

## CHILDREN PARK :

The school is having well equipped children park which develops the team spirit & refresh the brain of tiny tots.

## SUMMER CAMP :

The students remain in the school only for six hours & in this competitive world they have to be perfect in every field of life. It is not possible to teach all the extra activities in the school hours since we are very much conscious about Academic standard & this is a scientific fact that our brain works 24 hours. It is taking brief rest during sleep. If we are giving long rest to our brain it breaks the continuity.

By keeping all facts in the mind & to make the summer vacation productive, the school is organizing Summer Camp for 15 days. Undermentioned activities are taking place during the period as regular & additional activities.

REGULAR ACTIVITIES : (1) English speaking, (2) Computer, (3) Singing, (4) Dancing, (5) Horse riding, (6) Tae kwondo.

Additional activities : (1) Art & Craft, (2) Books binding, (3) Scout guide, (4) Basic knowledge about electricity, (5) fire extinguishers training

## Assembly activities :

To develop the speaking skills & confidence, class wise activities & house activities are being made the part of regular assembly.

## SCHOOL CANTEEN :

The eatables, provided to the students are nutritious & hygienic. Menu is drawn up in the consultation with doctors. Here, students learn the table manners & complete knowledge about balanced diet.

## EDUCATIONAL TOURS :

Educational tours are another part of studies to give vast & advanced knowledge. Trips are being organized for each class as per schedule. Week End Activities & Celebrations : Unit tests, march past, P.T., Competitions, classes of additional activities are the part of every Saturday. Each festival is being celebrated during assembly to develop the feeling of respect for each religious and National festival.

## HEALTH CLUB :

As per C.B.S.E. guidelines and to pay more attention towards the health of students, health club is formed by the school having six doctors, four teachers & six students. The object of health club is to maintain the health of the students. Health cards are issued to the students. Quarterly general health check-up is being done in the school itself & as per need of the students; parents are guided to visit the doctor

concerned. General precautions & balanced diet chart are mentioned on the Health Card.

**VALUE EDUCATION :**

Our motto is 'Knowledge, Wisdom, Humanity'. This is the core of the development of the content of Moral and Value Education in the school. However, adequate emphasis is laid on building strong character based on humanitarian values and good social habits. We strive to highlight our Ancient school. The development of spiritual knowledge and attitude based on our ancient Vedic Culture and Philosophy is the guiding principal of Value Education in our school.

**ECO CLUB :**

According to the guideline of U.P. pollution control board and to create awakening about the deterioration of environment, Eco club is formed by the school. Students are performing different activities like plantation, rallies, slogans, essay competition etc. as per schedule

**SCHOOL MAGAZINE :**

School magazine is a very important tool which provides ample opportunities to young generation to develop their writing skills. It also works as a plat form for the students to prove their skills, that is why Annual School Magazine is introduced.

*We are the* **rockstars** *of* **ROISSS**

## Chemistry Laboratory

The chemistry laboratory at ROISSS give Students the opportunity to perform experiments that explore important chemical concepts

## Biology Laboratory

This is ROISSS School's Biology Laboratory our lab expert conveys how well students can perform and experiments, during the experimentation process, convey information how to stay safe in Lab.

## Physics Laboratory

ROISSS School's Physics Lab, where 40 students can do experiments that hugs Lab according to CBSE norms with all equipments.

## Math Laboratory

Our ROISSS school mathematics laboratory is place where students can learn and explore mathematical concepts and verify mathematical facts and theorems though a variety of activities using different materials.
